**National Foundation for  
Entrepreneurship Development (NFED)**  
is a virtual organization established in 2003 in pursuance to create economic sustenance through entrepreneurship. NFED believes that Entrepreneurship Development & Enterprising Skills are the sheer necessity for a developing nation like India. However, it intends to serve under a global perspective to bring in prosperity by and large to foster entrepreneurial progression amongst all communities in general and women in particular.  
NFED has identified the lacunas of communities to become economically viable. It is only by being enterprising, which is a method to grab the opportunities around. Entrepreneurship Development is possible with a medium of Enterprising Awareness Creation (EAC) and Entrepreneurship Opportunity Guidance (EOG) which intends to identify and shape the personality as a potential source and prerequisite for any enterprising activity. NFED aims to bring out new vistas on these avenues and focus mainly on these two sectors to promote vibrant entrepreneurs who are at nascent level. NFED operates as a learning organization since its establishment as a registered trust in 2013. It focuses on Awareness, Training and Research in the functional areas of Entrepreneurship Development.

NFED is for those men and women hailing predominantly middle income group. This foundation is deemed to unshelve their dreams into realities through entrepreneurship. We have congregated this course of entrepreneurship education & training so as to become enterprising thereby to undertake an entrepreneurial activity and also to shoulder it as a responsibility for forthcoming generations. This will surely pave the way for upbringing of their fellow men and women. NFED will concentrate on Entrepreneurship Education, Application, Practice, Dissemination and interaction to create vibrant entrepreneurs and build an entrepreneurial base for future progressive society in particular.

## NFED CHAPTERS

The Expansion of NFED is the only way to achieve its functional objectives and quality policy. This strategy not only publicizes its activities but also encompasses its wide gamut of activities across National & International level respectively.

It is possible only through the integration of all its peripheries & boundaries which are of vital importance. To seed its mission & vision, Presidium members of NFED instituted numerous zonal offices, Operational Chapters, Territories and Franchises, which are of National and International importance and gains prominence amongst all sects of society at large.
